EN

Door made of wood particles with low formaldehyde emission (E1 Class) coated on both sides with melamine sheet. Matching edge.

ES

Puerta realizada con panel de partículas de madera a baja emisión de formaldehído (Clase E1) revestido en los dos lados por una hoja de melamina. Canto tono sobre tono.

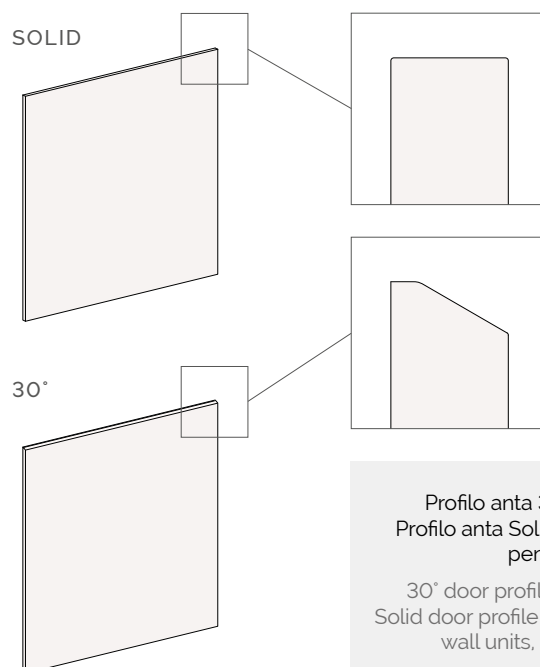

Si consiglia di abbinare le ante della cucina ai colori worktop Sapienstone corrispondenti.
We recommend matching the kitchen doors to the corresponding Sapienstone worktop colours.

Il progetto Balance Supermaterico nasce dall'idea di unire estetica ed eleganza, attraverso l'abbinamento perfetto tra le ante e il top in gres. La scelta di finiture e colori coordinati crea continuità visiva, donando alla cucina un aspetto monolitico e armonioso.

The Super-textural Balance project was born from the idea of combining aesthetics and elegance through a perfect match between the doors and the gres worktop. The choice of coordinated finishes and colours creates a visual continuity that gives the kitchen a monolithic and harmonious appearance.
